R O S I N
ABSOLUTE

FULL SPECTRUM CULTIVAR SPECIFIC

ROSIN ABSOLUTE'S COMPREHENSIVE PROFILE CAPTURES THE FULL SPECTRUM OF CANNABINOIDS, TERPENES, AND FLAVONOIDS, REFLECTING THE CULTIVAR'S TRUE CHARACTER WITHOUT THE NEED FOR POST-PROCESSING. THE RESULT IS AN EXTRACT THAT REMAINS TRUE TO THE ORIGINAL FLOWER, CAPTURING ITS ESSENCE IN THE PUREST FORM.

*Actual cannabinoid profile will vary

SAVOR THE FLAVOR

LOW TEMPS. HIGH TERPS.

ROSIN ABSOLUTE MARKS A TRANSFORMATIVE ADVANCEMENT IN CANNABIS EXTRACTS. OPERATING AT THE DELICATE INTERSECTION OF LOW TEMPERATURE AND MINIMAL PRESSURE, ROSIN ABSOLUTE METICULOUSLY SAFEGUARDS THE FULL SPECTRUM OF CANNABINOIDS, TERPENES, AND FLAVONOIDS, RADICALLY REDUCING THE OXIDATION THAT'S TYPICAL IN OTHER METHODS.

FOR AN OPTIMAL FLAVOR EXPERIENCE USE A LOW VOLTAGE BATTERY. 1.8V - 2.2V RECOMMENDED*

*Note: Most batteries operate above 3.0V. Flavor will be effected when using a higher voltage battery.

THE PROOF IS IN THE COLOR

JUST LIKE BEER AND TEQUILA COME IN A VARIETY OF COLORS, SO TOO SHOULD CANNABIS OIL. ROSIN ABSOLUTE OILS EXHIBIT A WIDE ARRAY OF COLORS BECAUSE OUR EXTRACTION PROCESS UNIQUELY PRESERVES THE ESSENTIAL TERPENES, FLAVONOIDS, AND OTHER BENEFICIAL COMPOUNDS. THIS LEADS TO A CANNABIS OIL THAT TRULY MIRRORS THE ORIGINAL FLOWER IN COLOR, FLAVOR, AND EFFECT, EACH AS DISTINCT AND EXCEPTIONAL AS THE CULTIVAR THEY DERIVE FROM.

ROSIN ABSOLUTE vs. DISTILLATE

ROSIN ABSOLUTE

PRESERVES TERPENES

FREE FROM TOXIC RESIDUES

FULL SPECTRUM

HEAT-FREE EXTRACTION

NO POST PROCESSING

DISTILLATE

REINTRODUCES TERPENES

RESIDUAL TOXIC CHEMICALS

SIMPLE FORMULATION

DEGRADATION FROM HEAT

POST PROCESSING REQUIRED
